"SPIRITUAL HISTORY OF BELGIUM"

Pray4belgium has been active to mobilize and coordinate prayer in and for Belgium since 2003. After two years of research, we have written a booklet about the "**Spiritual history of Belgium**". It is a small but handy booklet (22 p.) containing some basic facts about our land, historical facts and useful back ground information for **anyone with a heart of prayer for our country**. Many foreigners who move to Belgium, as missionaries or for other reasons, often don't know what is "in the air" or don't understand the particular problems. This booklet was written especially for them to offer more insight and also to enable more directed and effective prayer. And yet many locals would benefit from reading more about their own background. About 22 subjects are covered such as the origins of Belgium, the identity struggle, history of Congo, the tension between Flemish and Walloon, ethical questions, the spiritual climate etc.

Besides the different subjects you will find **30 framed prayer subjects**. The booklet is offered in Dutch, English, French, German, Portuguese and Finnish.

Ideal for effective prayer for our land and a great gift idea for your foreign Christian friends.
